

MATURE COW GREAT NORTHERN JERSEY ONFARM 2011

1st Shirlinn Icy Eve / Wilson Family

Well what an awesome class of mature cows that we have here! We start with this outstanding Dairy cow with an awesome frame, it's that long clean neck that blends so well it's that height and balance through the front of this cow the openness and flatness of bone and that well balance udder that she has over our cow in second. The 2nd cow, I love the cow for her longevity, a cow that's had seven calves a very well balance youthful dairy cow. An amazing udder on this cow, it's that height width of her rear udder that she has the advantage today over our cow in third; I also admire the 2nd cow for her balance and mobility.

Take nothing away from our cow in third she has that lovely dairy frame that hardness on top, she has great balance in the front end. The capacity in the udder and the snugness of fore udder that blends so well to the body wall that strong ligament for a cow that s had five calves that she places over our large frame dairy cow in fourth it's that lovely flat dairy bone that you love to admire. Great class of Mature cows credit to the breeders.

2nd Ingallala Alpha Precious / Johnston

3rd Lynward Golden Boy Fidelity / D & J Grevett

3 YR OLD GREAT NORTHERN JERSEY ONFARM 2011

1st Transit Park Hattie / P Buckley & W & S Oslear

Starting with the 3 yr old class we have a young cow that has all the qualities you look for in a dairy cow. It's the style and balance, it's the width and capacity, it's that soft texture of udder and teat placement, and her wide rear udder that she places over our cow we have in second. It's that long clean neck, that lovely front end and dairy frame on this cow. She has that openness of rib and balance of her udder giving her the advantage over the cow in third. This dairy framed cow is clean with good dairy bone cow. She also has that lovely rump set up. It's that lovely udder and bloom. The soft texture and veining on this cow that has the advantage over our cow in fourth. The cow in fourth has that power and dairy strength with a well blended fore udder.

Great class of 3yo cows. It's a credit to the Jersey breed.

2nd Yandavale Sambos Darcy / D & J Grevett

3rd Moonpah Clinton Tania / W & R Burley

4th Ardylbar Comerica Eleanor / A . W Barron

2 YR OLD GREAT NORTHERN JERSEY ONFARM 2011

1st Rivendell latola Passion / Menzies Farms

To start off with our 2 Y/O in milk heifers what an outstanding class of young cows placing this heifer just fresh 3 week she is long necked heifer that blends so well through the front end, nicely balanced dairy frame with plenty of capacity, her rear udder is so wide & high, the veination through this udder was outstanding. She placers over our second heifer for her overall balance & dairy frame. 2nd The 2nd heifer has the advantage today with her head character and overall scale & balance, her long body & her sweep to her rib & openness. The snugness of udder places her over our 3rd placed heifer. 3rd heifer is a lovely balance heifer it's the dairy quality that beautiful front end that blends so well into her rib, it's that lovely sweep to the fore rib, width of rear udder, veining through the udder & teat placement that place her over 4th. A great quality heifer lovely balance dairy heifer, great dairy bone, love the front end has plenty of width throughout she has the advantage today on here balance and capacity to here udder & also her advantage of her foot & legs. Great class of young cow's credit to all breeders who took part in the competition.

2nd Ardylbar Comerica Fairy / Justin Wenzel

3rd Tarcoola Blackstone Eileen / S J & L T Coombes

4th Shirlinn Governor Dorothy / Wilson Family
