

PROCEDURES:

1. All animals must be inspected and authorised by an authorised Inspector. Check with the AJBS office for an Inspector in your area.
2. When you register a GR animal, it will take on the stud prefix allocated to your membership.
3. It is mandatory at all stages to have an approved form of ID as per the AJBS Book of Rules.
4. Date of birth for each animal is compulsory. All GRs must start with GR3 - no later!

COSTS:

1. First herd visit fee by inspector free of charge.
2. Second and consequent herd visit fee by inspector + \$27.50 (inc. GST).
3. \$5.50 including GST for each 'alive' animal registered. (No charge for dead animals.)

Policy (as per 'The Book of Rules' prepared by Federal Council, 2001)

1.1 GENETIC RECOVERY (GR)

Animals must meet the approved criteria for entry into the GR scheme. Animals from registered sire and dam are not eligible for GR. Members will be required to submit for inspection on farm records to verify the percentage of animals entering stages 1 or 2.

- Stage 3 GR3** - Original Animal (OA). This stage is open to all females of unknown parentage that have been inspected and considered to be of true Jersey type.
- Stage 2 GR2** - is a daughter of a stage 3 cow and sired by a registered Jersey bull.
- Stage 1 GR1** - is a daughter of a stage 2 cow and sired by a registered Jersey bull.

- Animals registered under the above stages have their GR stage printed after their names, eg. Jersey House Princess GR2 and this remains permanently.
- All progeny of stage 1 cows, by registered bulls will not carry a GR suffix.
- A female can be entered into the system as a registered animal provided sufficient on-farm records are available from dead or alive parentage to satisfy the requirements of the stages of the GR system.

All GR animals will be tattooed or ear tagged in the normal manner. Bulls cannot be registered out of cows with a GR2 or 3 suffix.
